of Biography etc.

Thank you for these notes. I have ordered Aaron.

Have you made any contact with the 'new' Nyce Institute of Humanities. I know Dick Sennett is looking for intersections with science and medicine.

What did you think of Marie Curie (on TV) and Roslyn Yalow? Our lethargic* was entrained at the (role-model) idea!

Does Karl Conrad prove your point on the death of the definitive? (* 4½)

Yours,

Joshua
