Personal memo from
JOSHUA LEDERBERG

Mr. Barry Sullivan
Deputy Mayor

DEC - 3 1992

"Hi Tech New York."

I understand your office is reviewing a reexamination of these issues of economic development.

With the NYC Partnership, I worked closely with Alair Townsend.

The enclosed document was an effort at realistic examination. Although I am a "biotechnologist" I would suggest caution about much expansion in that direction for NYC economy. Medical Services is another matter! And financial services are the long pole in our tent.

Together with my colleagues at the * N.Y. Academy of Sciences, I'd be happy to go more deeply into these matters with you.

Sincerely,

Joshua Lederberg

(* President-elect)
