NATIONAL INSTITUTE OF GENETICS
YATA 1,111, MISIMA, SIZUOKA-KEN.
JAPAN

August 29, 1968

Dear Josh:

By separate mail, I send you a special issue of "Kagaku Asaki" in which 10 of your articles 'Science and Man' are translated in Japanese (from p119 to p127). The Journal was published just before the ICG and, the publisher told, sold out in a week. I expect the article had stimulated the various fields of Japanese readers.

ICG has closed yesterday. I really missed you there. Also sorry Gan + Ann could stay too short period in Japan. Bruce is coming to Misima next week.

Sincerely yours
Tetsuo Jino

Jino.
