A.I.S.L. / autobiographical.

The records of AISLave, I believe, at the NY Historical Society on Central Park West. Should you have an occasion to reconnoiter what they have on the 1) founding of the laboratory, their 2) selection procedures, or any specific references to myself, I would appreciate hearing.

Does A.I. still survive?

Do they have any archives back to 1941?

Thank you
