A macro-pair of Cit. Class.'s

Gene – here is the Davis/L+Z pair I told you about.

Plainly too large to fit the CC mold. Do you want to break that?

Or, use it for a ~~[illegible]~~ "personal communication" feature in The Scientist. If so you should get Bernie's permission, which I'm sure he'll give!

It is an interesting story in several ways.

Jim
