Dear Dr. Hoffmann

Induced loss from microdiploids

Y

1992 Mut Res

— This review (att.) has just come to my attention. I am enclosing a prehistoric example (CSH 1951) that has dropped out of site. I'd especially commend that you look at Figs 7-9 in the original publication.

It would be a great convenience to me if you could send me a packet of your reprints, or failing that, a bibliography.

I'm just returning to this area of study.

With thanks,

Yours sincerely,
