

March 3, 1942

Professor W. Huse  
California Institute

Dear Bill,

Here is a press release about the work that we have been doing in the field of immunology. This may be released the week end of March 13; that is the Sunday March 15 would be satisfactory. I am leaving tomorrow morning, to be gone until March 25, and Dr. Campbell will be here for only a few days still, until perhaps the tenth. Please have him look at any changes that you make in the write-up.

Yours truly,

Linus Pauling
