Answering an earlier question re Avery

It is a groundless myth that he was "not appreciated" 1944–1947. *

See McCarty's new book; pp 221 ff. and the citation to Avery for his Royal Society Prize (Copley Medal) (Proc. Royal Soc. 185A: 128 1946)

Yours, hastily

J

* above all keep in mind that Avery (McCarty) was invited to the CSH 1946 symposium.
