Dear Dr. Lederberg,

I certainly enjoyed our conversation last Friday afternoon. Your personal recollections of the reception of Avery's '44 paper brought that period to life -- in all of life's complexity.

It was very kind of you to give your time so generously. Thank you for the reprints you gave me; when I have read them and thought more about this piece of history, I may indeed take up your offer to speak with me again.

Sincerely,

Gordon Bearn
