

Febr. 1, 1950.

Dear Gordon:

The trouble probably is with your Eosin Y. E.G., National Aniline
Lot NF-22 was fine, but 23 and 24 were ng.

I am enclosing some dye mix (Eosin, M.B., K_2HPO_4) for test.
Use 2.4 g/l, on almost any broth-~~15~~ sugar base.

Let~~o~~ me know if you still have trouble.

Sincerely,

Joshua Lederberg
