

October 27, 1947.

Dear Dr. Pigman,

I was glad to learn that you are now located within a reasonable distance of Madison. As soon as my experimental work seems to show some direction, I hope to avail myself of the opportunity of calling on you to discuss my program.

I have just begun to work, so that this may be some time. If you should ever happen to find yourself in Madison, I would be pleased to hear from you.

Yours sincerely,

Joshua Lederberg
Assistant Professor.

Dr. Ward Pigman,
The Institute of Paper Chemistry,
Appleton, Wis.
