Dr. Joshua Lederburg
Department of Genetics - School of Medicine
Leland Stanford Junior University
Stanford University, California

Dear Dr. Lederburg:

In accordance with our recent telephone discussion, I am submitting to you under this cover a copy of a brief which has been prepared for the consideration of Dr. Reynolds and Dr. Quimby of the National Aeronautics and Space Administration. I hope this brief will be informative and of some interest to you. In the event we become technically involved in the proposed program, we shall wish to discuss some of the technical matters with you at greater length. Thank you for your consideration.

Yours very truly,

J. L. Jones, Supervisor
Chemical Methods
