Dr. J. Murray Luck
Annual Review of Biochemistry
Grant Avenue, Palo Alto, Calif.

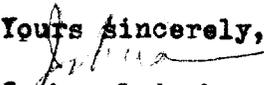

Dear Dr. Luck:

Thank you for your cordial invitation of the 15th ult.

I am most pleased to note your current policy on the character of ~~the~~ reviews & hope you can continue to persuade your invited authors to follow suit.

I am very sorry, however, that I will not be able to add this commitment to existing burdens. May I suggest that you consider Sinsheimer (at Caltech) as an alternative, in view of his stimulating contribution on the same subject (genetic chemistry) which appeared in Science some weeks ago.

Yours sincerely,

Joshua Lederberg
Professor of Medical Genetics
