Dear Josh:

Thank you for sending me a copy of your Sunday, May 2, article from The Washington Post, "Radiation Debate is Off-Base." I liked it very much and will probably refer to it from time to time in some of my speeches.

I note that you didn't hesitate to talk about the dollar value of human life, but you did it in terms which cannot possibly (or should I say, probably should not) cause criticism.

It was good to see you again, even if so briefly.

Sincerely yours,

Myron Tribus  
Senior Vice President  
Business Products Group
