

85 Eaton Terrace,
London, S.W.1.

10th April, 1969.

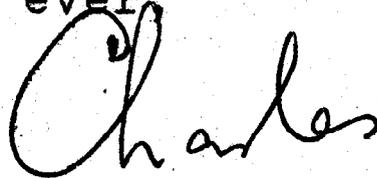

Dr. Francis Crick,
The Golden Helix,
19 Portugal Place,
Cambridge.

Dear Francis,

Did you make some trenchant remarks recently on the radio about genetic factors in various kinds of individuals and groups destinies? I seem to remember my eye catching some reference to this, but stupidly I didn't make a note of the exact occasion.

If you do possess a text, it would be very valuable if I could have a look at it.

Yours ever,

A handwritten signature in cursive script that reads "Charles".

(LORD SNOW)
