

December 5, 1955

Dr. Stuart Mudd  
Department of Microbiology  
University of Pennsylvania  
Philadelphia 4, Pa.

Dear Dr, Mudd:

I could not have thanked you enough by phone for the interest you have taken in our problems, and for getting Dr. Erdman in touch with my father's case. Possibly, an equally satisfactory arrangement might have been worked out in due course; whether this is so or not, I am sure your interest played a catalytic role to facilitate the transfer. I am greatly relieved that the matter is now in the best possible hands, and I have of course written Dr. Erdman to second the arrangement he had worked out with Dr. Scott.

With best regards from Esther,

Yours sincerely,

Joshua Lederberg
