Dr. Joshua Lederberg  
Department of Genetics  
Wisconsin College of Agriculture  
Madison, Wisconsin

Dear Dr. Lederberg,

About four years ago you sent to Dr. Cohen a strain of K12 called W-9 which had a requirement for biotin or uracil. We would appreciate another slant of either that strain or any other pyridoxinless mutant of K12.

We are comparing the galactose utilization of various strains of cali.

Please use the Bainbridge St. address.

many thanks,  
sincerely,  
Hazel Barner
