Madison 6, Wisconsin.

652

Dear Lederberg:

Thank you for your kind letter of January 9 referring to my speculations on transduction in Salmonella. I shall be much interested in following your further studies. Unfortunately, I do not have any cultures at the moment which might be of interest to you beyond those which Dr. Edwards has already placed at your disposal.

With kindest regards

Sincerely yours,

Earle F. Brennan
Assistant Director

EKB/MPA
