February 7, 1954

Dr. Joshua Lederberg
University of Wisconsin
Madison, Wisconsin

Dear Dr. Lederberg,

I have been conducting experiments on the work with mutations in bacteria. While reading on the subject, I came across a paper you wrote which could benefit a novice like myself. I hope you could provide a reprint of it that you can spare. The paper appeared in "Methods in Medical Research" in 1950. I would appreciate it very much if you could mail me a reprint of that article, assuming your stocks are not depleted.

Respectfully yours,

Arthur Brown
