BUFFALO 3, N. Y.

August 12, 1955

Dr. Joshua Lederberg
Department of Genetics
University of Wisconsin
College of Agriculture
Madison 6, Wisconsin

Dear Joshua:

The enclosed copy of a letter to Dr. Ceppellini answers your request of July 30th.

I regret exceedingly that you came through Buffalo while I was away. Your remark that you "can't emulate my vacationing" calls for comment. I hid out in a log cabin in Southern Colorado with a monumental manuscript by Levan and myself, trying to see it through to publication without the administrative interruptions of my present job. In this I succeeded only partly.

With warm regards to both of you,

Sincerely,

Ted.
