Dear John and Ethel,

I do not take credit for the picture on poem on this card, since these are products of my new children. They do, however, express my feelings about Christmas, and in taking this opportunity to send you my warmest wishes and greetings, I hope that we shall get to see you people some time soon.

I would like you to get to know my new family, and, of course, if you come to San Francisco, I show off my beloved city. yours as ever,

1. I hope that the tree in your house gives the glow that it does in mine.
2. If it does, I know you'll have a very happy time.

Merry Christmas and a Happy New Year

P.S. 1953
