HADDOW

THE CHESTER BEATTY RESEARCH INSTITUTE,
THE ROYAL CANCER HOSPITAL,
FULHAM ROAD,
LONDON, S.W. 3.

31st January 1949.

Dear Dr. Lederberg,

I have read with much interest the recent abstracts of your work referred to in Genetics, 1948, 33, 617, and take the liberty of sending a reprint of a very ancient paper on secondary colony formation, in the hope it may be of interest.

Although I have not as yet finally decided, it seems at the moment of writing I may come over for the meeting of the American Cancer Society and the National Cancer Institute to be held at Memphis late in February. If you are to be present, I should very much like the opportunity of seeing you.

With kind regards,

Very sincerely yours,

Hereward Hadow

Dr. J. Lederberg,
University of Wisconsin,
Madison, Wisconsin,
U.S.A.
