Oct 25, 1953

Dr. Landsberg,

I have just gotten around to reading your paper on Sex & Bacteria in Science (Aug 17) of which you very kindly gave me a copy. I enjoyed reading it. It is a very concise and informative paper and I much appreciate your sending me the reprint of it. It will be useful for reference purposes in my course in bacteriology and advanced virology.

Sincerely yours,

Lowell E. Noland
