

February 14, 1952

Dr. Osvaldo A. Paso
Av. Figueroa Alcorta 5950
Buenos Aires, Argentina

Dear Doctor Paso:

I have just had occasion to write a fairly full summary of the work that Mr. Zinder and I have done with Salmonella transduction. I enclose a copy for your information and interest. I believe that the summary answers your specific questions. We shall certainly reserve a reprint of the published manuscript, and look forward to a similar courtesy on your part.

Sincerely,

Joshua Lederberg
Associate Professor of Genetics
