Dr. J. Lederberg  
Department of Genetics  
University of Wisconsin  
Madison, Wisconsin

Dear Dr. Lederberg,

In reading the literature, I have come across one of your papers in which you mention having used o-nitrophenyl-B-D-galactoside. I am working on a project, under direction of Dr. Avram Goldstein, in which I find it necessary to use that compound.

Since I have not been able to find any commercial source of o-nitrophenyl-B-D-galactoside, and have not the facilities for synthesizing it, I should be most grateful for any suggestions that you might have for obtaining some.

Sincerely yours,

*Alexandra Skedlovsky*
