

October 31, 1949.

Dr. J. M. Sherman,
Cornell University Press,
Ithaca, N.Y.

Dear Dr. Sherman:

In the last mail, I submitted a manuscript "The selection of genetic recombinants with bacterial growth inhibitors" for the Journal of Bacteriology. Inadvertently, a carbon copy was enclosed, instead of the typewritten original. The original is included herewith, with my apologies.

An additional copy is on file here in the Dean's Office, so that it is not essential that the carbon be returned, if you have any use for it.

Sincerely,

Joshua Lederberg
