School of Agriculture
University of Wisconsin
Madison, Wisconsin

Dear Joshua:

I sent off the S. typhimurium 9S⁺-2 culture to you a few days ago, and if you haven't received it yet, you should get it shortly.

If you let me know when and where at you will be arriving in Washington, I would be glad to pick you up.

I saw Seymour in Vienna and told him about the camera. In case he hasn't written to you, and if it isn't too late, he told me he has the slips for development of the film he left with Cavalli to be given to you.

Best regards to Esther.

Sincerely yours,

A handwritten signature in cursive script that reads "Lou".
