Dear John:

I will of course follow up on your daughter's application. My main point was that I could happily be a conduit for your own approbation, and it would make some sense if I did, but you should also send in parallel references.

About your Rockefeller role: if you don't already know him, you should be in touch with Roy Edmonds*, until recently and for many years Director of the Medical School at Suva. If your new post has place for a partner I suspect he would be very amenable. His family needed a break from the colonial life but I know his own mission is in this aspect of medical education.

Sincerely yours,

Joshua Lederberg
Professor of Genetics
