Professor J. Lederberg  
Department of Genetics  
University of Wisconsin  
Madison 6, Wisconsin

Dear Dr. Lederberg,

Thank you very much for forwarding to me three stocks of E. coli K12 which I recently requested. The fermentative properties of the strains are now being checked. They will be used both to demonstrate one aspect of the general process of fermentation, as well as the idea of active transport in cells....before the general biology classes here.

Sincerely yours,

  
Philip E. Hartman
