Dr. Alexander Hollaender
Oak Ridge National Laboratories
Biology Division
P. O. Box PY
Oak Ridge, Tennessee

Dear Alex:

We have been very pleased to see the latest listing of the reprints from your laboratory. As I have requested on a previous occasion, I would be very grateful if you could let us have the full list of available reprints since the activities of your laboratory and of our department are so closely related. We are planning to bind these from time to time as an extremely valuable addition to our permanent reference collection.

I have been delighted to learn of the constructive measures that have developed since our recent conversations on the rectification of the NASA program on radiation biology in space.

Yours sincerely,

Joshua Lederberg
Professor of Genetics

P.S. We already have item No. 1700 and this would not have to be repeated. If No. 1613 is available for distribution, I would particularly like to see this.
