Dr. Joshua Laderburg
University of Wisconsin
Madison, Wisconsin

Dear Dr. Laderburg:

Szilard tells me you are passing through Denver on your way to Berkeley. We should like very much to have you stop over and discuss various aspects of Biology, in particular your recent radiation work which Szilard tells me is particularly interesting. We will show you some of the things going on here and give you a chance to see some real mountains. Luria is with us now and we can have some very interesting discussions. Won't you try to make it?

Please give my regards to Mrs. Laderburg.

Sincerely,

Theodore T. Puck, Ph. D.
