LONDON, CANADA

April 4, 1951

Dear Lederberg,

Many thanks for your note  
of February 25 - which arrived  
yesterday. I am glad to  
know that you are going  
to be at Cold Spring in June.  
Keep in good shape till then!  
A very loud voice will be  
needed! - I have not been  
invited and shall not  
intrude.

Murray and I  
are looking forward to

seeing you at the SATB meetings.  
There are a number of useful  
things to report, such as the  
quantitative chemical deter-  
mination of DNA in ± selectively  
"etched" spore nuclei.

Best wishes  
from

C. Robinson
