Dear Josh.

Thank you very much for including my name in the list of prospective participants in the microbiology session in Moscow, according to a letter from Derbyshire that was forwarded to me to here. alas, I shan't be on hand for the Biochemistry Festival and will thus be unable to take part in these discussions, much as I should have liked to do so. I'm going to Stockholm for the Biophysics Meeting, but then return directly to Cambridge, hoping to be able to finish up a little series of experiments on a genetic locus in K12 that controls RNA synthesis, before it'll be Statesville for us again September 2nd. See you on the Bay.

Warmest regards to you, Esther and the Kleins

from your

Jim
