Dear Joshua,

Just a word to thank you very warmly for sending me the paper on "X Linkage in Manic-Depressive Psychosis". The project that we have undertaken in this field is off to a good start and if you wish, I could ask Dr Vartanian, who is responsible for it, to send you all the relevant information.

Dave Hamburg was here recently to participate in an expert committee on adolescents, and Betty was with him. As usual his performance was outstanding and most impressive; but above all I was delighted to have a chance to see him again and talk with him and Betty.

With kindest regards, and hoping that there will be some opportunity to see you.

Yours sincerely,

Dr N. Sartorius
Chief
Office of Mental Health

Professor J. Lederberg
Professor of Genetics
Stanford University Medical Center
