DEPARTMENT OF GENETICS  
Professor Joshua Lederberg

Dear Clive -

Good to hear from you.

\*  
Our interests in demographic genetics are  
something of a sideline though I am interested  
to see what we can do with the census data.

The Bureau of Census is sending a resident pro-  
grammer here, together with the 5% sample  
of the 1960 population census, for this cooperation.

If you have any further chance to visit  
us, please do. It would be a personal pleasure,  
and we could use the chance to pick your  
brains about what we should do on the  
census project.

Regards,  
Joshua
