29 April 1976

Dear Josh,

... Thank you very much for your letter of 16 April. With respect to our Pre-ACMR meeting, I am enclosing copies of letters which are self-explanatory. This, I believe, should answer one of the questions you pose.

I am afraid it is out of the question to invite Umezawa to the Pre-ACMR meeting, but he seems like a good candidate for the future ACMR. I am calling this to Howard Goodman's attention. He will deal with this matter after I leave my regular post at WHO in July.

Please let me know your travel plans with regard to yourself and your family so that I can take the necessary steps for your stay here.

I am sending you under separate cover the report of the CW Workshop held in London a couple of weeks ago. As you will note, it marks quite a step forward in dealing with this problem. Unfortunately, I did not have the opportunity to see Ambassador Martin, although I tried to make sure that I got a copy of the report into his hands upon my return from London, which was just prior to his departure from Geneva.

With best regards.

Yours sincerely,

Martin Kaplan
