

Memo from  
JOSHUA LEDERBERG

To: Dean Warren Winkelstein, J  
School of Public Health  
University of California  
Berkeley, Calif. 94720

November 19, 1975

This kind of abuse (even if for an evident "good cause") of epidemiological data is what makes me cautious about advocating such studies. I do think that people like you must speak up, or face having the whole approach discredited.

Sincerely yours,
