Personal memo from
JOSHUA LEDERBERG

San Proctor's papers.

In ODSG (see enclosed) I thought it would be informative to quote literally from some of Biddle's "Golden Pheas Annals". I believe he issued a monthly bulletin of that title ca. 1976 ff.

If these are readily accessible as the papers, I would appreciate a selection (bearing on mental, not social sciences) for the ODSG.

Sincerely,

[Signature]

P.S. - Re my new address, I have so far written little about my years at U.W. But see enclosed. R. A. Brink's paper were most helpful.
