7th October 1968

Dear Joshua,

It is too bad, but Dr Zaffaroni is going to be in London precisely on the days on which I shall be in New York, so I shall have no opportunity to see him. I am writing to the Dorchester to tell him accordingly.

The schistosome work you refer to in your PS is most interesting: a new kind of physiological mimicry. Its author is Dr S.R. Smithers of our Parasitology Division, and I have asked him to send you a xerograph of the Ms he is sending to the Royal Society.

All good wishes.

Yours ever,

Peter

I phoned this to Z's secretary
so she could let him know
in advance.
