Dr. Joshua Lederberg
Department of Genetics
The University of Wisconsin
College of Agriculture
Madison 6, Wisconsin

Dear Dr. Lederberg:

I was glad to have the opportunity of talking with you in Chicago and am sorry that we could not talk longer. These meetings are just too rushed at present.

Wyss and I will get our material together and send it to you at the end of ~~February~~, which should be in time for you to take it over for your manuscript.

January I hope
I am looking forward to seeing your paper and talking with you again. Regards to Briles and our other friends there.

Yours sincerely,

Wilson S. Stone
