Dr. Josh Lederberg
Stanford University
Palo Alto, California

Dear Dr. Lederberg:

I have had many letters inquiring as to the effect of L.S.D. on unborn children. Can you tell me whether or not there is any evidence that L.S.D. produces deformed babies? I visited with our mutual friend Dave Bazelon yesterday and told him I was going to write to you for this information. He asked me to send his best.

Would you please respond to my home address: 1000 Lake Shore Plaza, Chicago, Illinois 60611.

Sincerely,

A handwritten signature in cursive script, appearing to read "Ann Landers", written in black ink.
