Mr. Harry Robinson  
Bard Hall  
50 Haven Avenue  
New York City

Dear Mr. Robinson:-

On a call made by me today to the Medical School, I happened to talk to a friend of yours who told me that you were particularly well fitted to do certain research with respect to sulfa drugs and their effects.

In connection with a law suit we have here, we have decided to have this research done by a medical student, if possible. We should like to arrange to see you, if you are interested, and to arrange for compensation, as well as to lay out the scope of the inquiry.

Would you be kind enough to telephone me at your earliest opportunity to make an appointment if you are interested. I should appreciate your calling in either event.

Very truly yours,

*Norman Winer*
