Dr. Joshua Lederberg
Stanford University
Stanford, California

Dear Dr. Lederberg:

As a member of two organizations which work for the protection of the environment in an area threatened by three nuclear power plants, I am interested in any articles you have authored which detail the public health costs of atomic radiation. The Environmental Coalition on Nuclear Power hopes to take legal action against the construction of the Limerick, Newbold Island, and Salem plants, and any information and reprints you could send me would be appreciated. I will be happy to pay any charges involved.

Sincerely yours,

A handwritten signature in cursive script that reads "Nora Tocknell".

(Miss) Nora Tocknell
