Dr TC Chalmers

HAA/ blood for transfusion

AUG 11 1971

Representative Veysey came by to see me in connection with this article, and especially the proposal, that I believe your committee favored, for tax-deduction incentives.

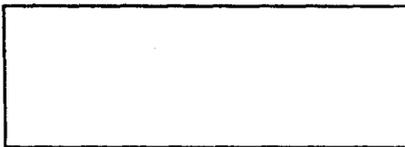

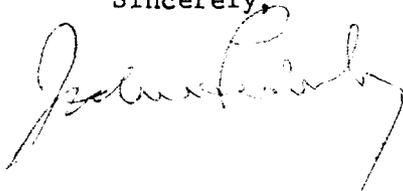

He particularly asked for more factual background -- may I hand on such a task to you?

And may I be on your mailing list for further policy-oriented reports in this area?

Needless to say, I would welcome corrections on any factual errors that may have penetrated this discussion.

Sincerely,
