Dec. 29, 1969

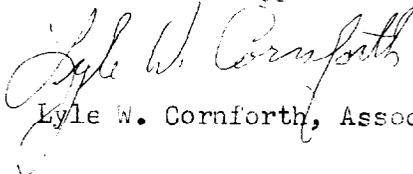

Dr. Joshua Lederberg
Department of Genetics
Stanford University
Palo Alto, Calif.

Dear Dr. Lederberg,

In behalf of the Inter-agency Groups of the nation's capital I am making contacts for the support of a "stop-smoking week" of activities, and final rally, to be held on Jan. 11, 1970.

We have appreciated your excellent scientific columns, and would lodge a request with you that you prepare a column to coincide with our rally day. We are requesting that, if possible, you prepare a column on the subject of "How to Stop Smoking", "Should I Stop Smoking", or "Does Smoking Really Matter?" This could be published near to Jan. 11 if possible.

With sincere appreciation,

Lyle W. Cornforth, Associate Pastor

P.S. I find your columns in the Washington Post.
