August 31, 1970

Joshua Lederberg, Ph.D.  
Dept. of Genetics  
Stanford University School of Medicine  
Stanford, California 94305

Dear Dr. Lederberg:

We are in receipt of your August 28th letter and application for renewal of your Basic Research Grant. We shall look forward to receiving the application containing the required signatures and eleven copies of it.

In reviewing your application, we notice that you have requested a stipend for Dr. Bruce Brandt. We are somewhat confused about this as we are in receipt of a Basic Science Fellowship application from him. If Dr. Brandt is awarded an NCFRF Fellowship, is it your intention to name someone else as your research associate on your application? We would appreciate your clearing up this matter for us as soon as possible.

In reference to Dr. Cavalli-Sforza's application, the Research Committee has set a very rigid deadline - September 15th is the last date that we will be able to accept any further applications for the fall review. In case Dr. Cavalli-Sforza cannot meet that deadline, the Research Committee has another review in the spring, the deadline for that being February 15th.

Thank you for your cooperation.

Sincerely yours,

*Ann Cheswick*

Mrs. Ann Cheswick  
Administrative Assistant  
Basic Research Programs
