Biological weaponry - civil defense

Dear Fred -

It would be most gratifying and reassuring, if you could take the ISS study weakness in this area.

If there are jurisdictional problems, it seems to me, the Pentagon might be the security of military installations; the Pentagon, obviously, drew its water supply from municipal sources.

Is there any step I should now take?

Joshua.

The Russian scientists dis credulously acknowledge BW proliferation as a serious problem; but see Amoros's presentation (and others).
