

THE LIBRARY OF CONGRESS

WASHINGTON, D. C. 20540

June 1, 1969

LEGISLATIVE REFERENCE SERVICE

Dear Josh:

I did a thing on chemical and biological warfare a few months ago. It was released by committee only very recently. One of your fine pieces in The Washington Post was placed in the appendix.

An effort was made to avoid sensationalism and to deal realistically with the options available to us as a nation in getting CB weapon systems under international control.

Would appreciate your comments!

Sincerely,  
Freeman H. Quimby  
Specialist, Life Sciences

JUN 2 1969

Dear Freeman--

I was very pleased to see this. Could you speed about 10 more \* copies to me; and I enclose a check to anticipate any charges-- the GPO is just too slow. BW is a big issue on campus right now.

John.

\* and one, urgently, to Dr. Martin Kaplan, W.H.O., Geneva.
