COMMENTS:

SUBJECT:

Probably in connection with grant to Committee on Research in Medical Economics
Minute page 42343

At the meeting of the Trustees last December, there was some discussion of the general question of what has come to be called "social medicine," and President Dodds asked Dr. Gregg whether he would be willing to prepare a descriptive statement of what is meant by this phrase.

Dr. Gregg has complied with this request and I am sending herewith a copy of his statement. - filed
