To Mr. Coy / Coy Jun 1890.

Baltimore, Jan. 5th, 1900

Dear Mr. Coy:

I have been asked by the Faculty to look up the question of the health of the students since the school opened. Will you look over the lists, and tick off those who have withdrawn: (a) at the request of the Faculty; (b) on account of ill-health; (c) death; (d) various reasons? I daresay by a little inquiry among the first and second classes you will be able to get all the desired information, I want particularly to find out how many have been ill with typhoid or any other protracted sickness.

Very truly yours,  
Wm Osler
